THE BONNIE BLUE FLAG

Death of Mrs. Ketchum Recalls Her Stirring Southern War Song.

CAREER OF THE AUTHORESS

She Was Distinguished Alike by Heredity and Personally. Her Brave Battle.

Next to "Maryland, My Maryland," and the immortal "Dixie," the Confedwar song possessing most vitality, and likely to survive longest they period which inspired it, is the "Bonnie Blue Flag," by Mrs. Annie Chambers Ketchum, whose death in New York on the 27th instant was published the follow-ing day in the Richmond Times-Dis-

an Irish choral, composed more than a hundred years ago by a student of Dublin University. It was called "The Irish Jaunting Car," and began:

"My name is Larry Doolan,
I'm a native of the ile,
And if you want to hire me
I'll drive you out in style. If you want me.
Step into Mickle Mahr, And ask for Larry Doolan, and His Irish Jaunting Car."

At the breaking out of the Civil War Harry McCarthy, a strolling Irish Comedian, sang this song in the Southern States, and at the close of a convivial concert was asked by a Mississippian to put war verses to the air. McCarthy was no poet, but he set his own rendering, beginning:

"We are a hand of brokers."

"We are a band of brothers,
Native to the soil,
Fighting for the property
We gained by honest toil,
For when our rights were threatened,
The cry rose, near and far,
"We'll fight for the Bonnie Blue Flag,
That bears a single star."
The song was arranged by West.

That bears a single star."

The song was arranged by Wolf (still living, at last accounts, in New Orleans), the band-master of the Washlugton Artillery, known as the Louisiana Tigers. It was sung by Mr. McCarthy in 1861, and at once captured the hearts of the Southern soldiers.

BONNIE BLUE FLAG.

Two years later, when Memphis had fallen into the hands of the enemy, Sir Henry Percy Anderson, of the British Legation, visited the city on official business. There he made the acquaintance of Mrs Annie Chambers Ketchum, a gifted Southerner, whose writings were attracting attention, and whose "Battle Cail" had been pronounced by English critics the modern Chevy Chase. In the course of conversation Sir Henry referred to McCarthy's "Bonnie Blue Flag" as doggerel, and asked that Mrs. Ketchum would write other words to the tune. This she did, and under the title "The Gathering Song" the following verses appeared: ing verses appeared:

'Come, brothers, rally for the right!

The bravest of the brave
Sends' forth his ringing battle-cry
Beside the Atlantic wave.
She leads the way in honor's path;
Come, brothers, near and far,
Come, rally round the Bonnie Blue Flag
That bears a single star!
Hurrah! hurrah! for Southern rights
Hurrah!

Hurrah! hurrah! for Southern in Hurrah! For the Bonnie Blue Flag That bears a single star!

II.

We've borne the Yankee trickery.

The Yankee gibe and sneer.

Till Northern insolence and pride
Know neither shame nor fear.
But ready now with shot and steel
Their brazen front to mar.
We holst aloft the Bonnie Blue Flag
That bears a single star.

III.

Now Georgia marches to the front,
And close bestde her come
Her sisters of the Mexique sea,
With pealing trump and drum;
Till answering back from hill and glen
The rallying cry afar,
A nation hoists the Bonnie Blue Flag
That bears a single star.

IV.

By every stone in Charleston Bay,

By every stone in Charleston Bay,
By each belengured town.
We swear to rest not, night nor day,
But hunt the tyranis down:
Till bathed in valor's holy blood
The gazing world afar
Shall greet with shouts the Bonnie Blue
Flag.
That bears a single star.

AUTHORESS ARRESTED.

The song went the rounds, supersed-ing McCarthy's version, and the fame of it reaching the Federal authorities the author was arrested and required to take the iron-clad oath of allegiance of leave Memphis. She refused to take the oath and was banished from her home. But apart from this incident in it, the of Mrs. Ketchum—distinguished both heredity and personally-is well worth maternal grandfather, Judge

Her maternal grandfather, Judge Fielding Bradford (with his brother, John), founded the Kentucky Gazette, the first paper published west of the Aleghanies. Through her father, Major Henjamin Stuart Chambers, she was descended from Ephratim Chambers, whose grave (as the author of the first Encyclopedia ever published) is pointed out in Westminster Abbey. Major Chambers was one of twenty who made the "forlorn hope" at the battle of the Tliames, and one of six who came out nilve from that bloody massacre. He af-Thiames, and one of six who came additive from that bloody massacre. He afterwards settled in Kentucky, and was appointed by President Jackson Receiver of Public Moneys for the Territory of

Arkansas.
After his death his talented young daughter, when only eighteen, married her cousin, Mr. Bradford, and a few years

afterwards was left a widow, with two small children. Their support developing upon her, she obtained the position as principal of the Memphis High School for girls, where she developed marked ability as a disolplinarian, teacher and lecturer. She introduced advanced methods into the institution, and established a class in clocution, including the pupils of the Young Men's High School. During her vacation she gave a series of lectures, and with the proceeds supplied the school with necessary apparatus for the study of chemistry, physics and astronomy.

For many years before her death Mrs. Ketchum was a Roman Catholic and a Dominican. Her health did not permit her to subject herself to the austerities of the cloister, but she belonged to that section of the Third Order of St. Dominic —Capitalas Tertiaries—whose members assume the vows of the convent Tertiaries, but live in the world, and wear a secular dress. She wore the Dominican habit on feast days, however, and was buried in it. (Special to The Times-Dispatch.)

CHESTERFIELD, VA., Jan. 30.—The

County Court of Chesterfield county, after an existence of nearly one hundred
and fifty-five years, to-day quietly passed
away, as the solemn voice of Mr. William C. Gill, the county's sheriff, at 3:15
proclaimed the court adjourned sine die.

A memorial was drafted by four officers
of the county, namely: Captain E. H.

Flournoy, Judge J. M. Gregory, Hon. P.
V. Cogbill and Mr. William C. Gill, and
submitted to the court, embodying a brief
history of the County Court, and deploring the passing of the time-honored institution, which was engrossed among the

The first court was held in June, 1740, and presided over by eight justices; the last was held by Hon. Lawrence P. Pool, who has been judge for two terms, completing the unexpired term of Judge William I. Clopton, who long served the county with distinction.

After a service as clerk of the Circuit Court for about thirty years, Captain E. H. Flournoy's term of office ends to-day, with the merger of the courts, Mr. P. V. To illustrate this law, suppose, on July 1, 1901, a person applies to a registrar for registration, the next succeeding election being in November, 1901. In June 1904, he paid all poll tuxes assossed or assessable against him. This however, was not six months preceding the following November election, and so the person would not be entitled to vote at that election. The mistake was produced by a confusion of section 73 of the Code of virginia, as mended by act approved December 8, 1903, is unconstitutional. The mistake was produced by a confusion of the provisions of the new Constitution governing registration with those governing voling. The qualifications required by the new Constitution for these two things are separate and distinct.

One of these provisions (see section 21) is that no person, with certain exceptions, shall be entitled to vote at any election unless he shall "personally pay, AT LEAST SIX MONTHS PRIOR TO THE ELECTION, all State poll taxes assessed or assessable against him under the Constitution during the three years next preceding that in which he offers to vote.

The State Library.

Editor of The Times Dispatch:
Sir.—The recent rearrangement of the broks in the State Library, preparatory to the cataloguing of the valuable collection of books, MSS, etc., which compose this very excellent, and, in some grapers and documents has disclosed most prominently the value and richness of its contents. This new information, together with the precedent knowledge of its contents, will necessarily greatly augment the imperative need for easy and continued access to the library, because the usefulness and educative function of this institution depend largely upon its being open at all reasonable hours, day and night.

We are confident that, under the new provisions of the law creating a Library

night.
We are confident that under the new provisions of the law creating a Library Board, which has in charge the management of the library, it is destined to take its proper rank and exert its proper influence. The board is composed thoughtful and capable gentlemen, thoughtful and capable gentlemen, who will endeavor to perfect all arrangements to increase the Library's usefulness and accessibility. They have no doubt already formulated plans to effect theso ends. But I would suggest three things which would greatly tend to bring about these most desirable purposes.

1. Have the Library open continuously from 9 A. M. to 19 P. M. each day, except Sundays. This would require an appropriation by the General Assembly, but the real value of the Library would be recommended.

propriation by the General Assembly, but the real value of the Library would be more apparent by this course, and this can be done in no other way. But this can be done in no other way. But the books can now be carried from the Library, and persons desiring to read, study or consult the books, etc., in it cannot do so, because the hours are totally unsuited to these persons With the Library opened during the hours named, all who wish to visit it will be accommodated. Nothing would be of more general usefulness and no money could be better expended. It may be said that this was done once and falled. That is clearly a misapprehension. The Library was never kept open during the lary 220 to January 29th:

That is clearly a misapprehension. The Library was never kept open during the hours suggested, and the plan adopted way not a fair test of the idea I present. It may take several years to show the vast advantage of the open use of the Idbrary. Men do not become acquainted with such things instantly; they have to learn by degrees. It is certainly true that our Library should not be kept a "scaled book" to all of the people who have to work during the day and have no lesure to visit it, except at night. I am satisfied that the Library Board favor this plan and are now maturing some way to accomplish it.

Some way to accomplish it.

The Books should be permitted to be taken from the Library by students and authors on certain precautionary conditions prescribed for their safekeeping and return. This could be accomplished by the deposit of money or the execution of a bond guaranteeing the safekeeping and safe return of the books taken out. This is done in many places, and the plan has proved of inestimable benefit to readers, students and writers. The plar needs no elaboration to demonstrate its usefulness and feasibility. I am sure the Library Board will approve such a the Library Board will approve such plan, and will do all it can to render i practicable and generally useful.

plan, and will do all it can to render it practicable and generally usoful.

3. A printed catalogue of the contents of the Library, which may be consulted without a visit to the Library. The Library is a State institution and belongs to the State. As administered in the past, no one knews what is in the Library, unless he comes to Richmond and consults the librarian in person. This heing expensive, men seldom come. Therefore, the Library is to a great extent useless to the people. But by having a printed catalogue, based upon the general method of cataloguing, which is now being effected by the present librarian, to be kept in the office of some designated official in each city, town, village and county, in the State, a person deriving to know what is in the Library could ascertain what is in it and then get the book under the arrangement above suggested, or come to Richmond

SOUTHERN RAILWAY
WINTER TOURIST SERVICE.
Season 1904.
Europeans in the near future will be coming to America to pass the rough winter season instead of going to Italy and the south of France. I mean this liferally. It will prove true, in years past Americans went to the south of Funces to escape the rigors of our Northliterally. It will prove true, In years past Americans went to the south of Europe to escape the rigors of our Northern winter. Some of them go now. Possibly it is force of habit, possibly it is force of habit, possibly it is because in the case of snobbish people they think it fashlonable and they stand a chance of meeting the fashlonables of Europe. By and by, however, our own people, as well as the people of Europe, will be influenced by the simple advantages of convenience, comfort and hea'th in the choice of their wintering place. These they will find most real in Florida, along the Guif Coast and in Southern California. First they can reach those points from this city, which may be called the center of the Northern region, and from which European visitors would go more easily than they can reach the Mediterranean from London or Paris,

I am reminded of this by the announcement of the Southern Railway's Palm Limited, a magnificent and rapid train put on as a special to St. Augustine for the winter travel. There is no such train in all Europe; no such comfort and speed can be had on the trains to the Mediterranean. It is only one of three or four similar trains run by the different routes to the American Riviera. Then them is its Southwestern Limited, taking people to the Gulf Coast. New Orleans, and on to Southern California, fitted throughout with the luxurles of the best of our eastren trains. When you have reached these Southern resorts, whether on this coast or the Pacific, you find a climate incomparably more equable and healthful than that of the Mediterranean. You find cottage homes or hotels with appointments, service and food so much better than anything in any part of Europe that when only health, comfort and convenience are considered by people in selecting their wintering places, all the world will come to our Southern resorts. Americans will cease going to the Mediterranean and Egypt, except for a first trip of discovery and education.—Town Topics, New York, N. Y., January 21, 1904. I am reminded of this by the announce

A POUND PARTY FOR A WORTHY INSTITUTION.

THE LADY MANAGERS OF THE EYE. BAR and THROAT INFIRMARY 217 Governos Street, announce that there will be a POUND FARTY at the Indrenary on WEDNESDAY. February 3d.
